PERSONAL PROJECTS

Portfolio Website

- To better market myself and my accomplishments, I built a personal portfolio website using JavaScript, HTML, and the Bootstrap CSS Framework.

Note Taking App

- It's a straightforward note-taking web page built with React and Bootstrap that lets users set notes, get notes, and filter notes.
- We have make use of Functional based components of class to do so.

News App

- I have Created a news scrolling app using ReactJS and boot-strap. I have make use of NEWS API to fetch news from the server and publish it on my web page using the HTML cards. I have implemented this website using both functional and class based components of ReactJs.
